NEW PLUGIN RELEASE: BREADCRUMBSPRESS FREE/PRO

Powerful plugin for expanding website navigation with breadcrumbs

Niš, Serbia, April 14, 2021. Dev4Press today announced the release of a new plugin for WordPress: BreadcrumbsPress, in both Pro and Free editions. BreadcrumbsPress is the most complete solution for generating and displaying breadcrumbs for WordPress, with options to customize the breadcrumbs sequence, change the display of individual crumbs (including icon-based home crumb), various options to adjust breadcrumbs block styling, many tweaks, and more. The plugin has direct integration with several popular themes (with more to be added in the future).

Both BreadcrumbsPress editions have full support for the JSON-LD rich snippet markup for breadcrumbs, used by Google and other search engines.

Pro edition of BreadcrumbsPress has several additional features not included in the Free edition: the display of multipath breadcrumbs, various display and markup tweaks, display menu as breadcrumbs sequence. For most purposes, the Free version is sufficient for most users.

The plugin also has support for various other plugins developed by Dev4Press, and for several major WordPress plugins including bbPress, BuddyPress, and WooCommerce. More plugins will be supported in future versions.

For more information about BreadcrumbsPress, a list of features, and related articles, please visit the plugin home page: plugins.dev4press.com/breadcrumbspress or the page in WordPress.org plugins repository: wordpress.org/plugins/breadcrumbspress.
